SKILLS

BACK END DEVELOPMENT | C#, Php, Javascript, Java, Python, Dotnet, Laravel, NodeJS, Springboot, Django

FRONT END DEVELOPMENT | ReactJS, HTML, CSS, Redux, Material UI

SOFTWARE DEVELOPMENT | React Native, ElectronJS, Flutter

MISCELLANEOUS | MySQL, MongoDB, Docker, Amazon AWS

SOFT SKILLS | Team player, Fast learner, Dependable, Problem Solver, Critical thinker

PROFESSIONAL EXPERIENCE

GLYDETEK GROUP | C#, Dotnet, MySQL, ReactJS, Javascript, HTML, CSS

Software Engineer | May 2023 – Present, Accra, Ghana

Glydetek Group Internship Management System For Kumasi Technical University

- Contributing over **35%** to the Glydetek Group Internship Management System, I played a pivotal role in both frontend and backend development. Proficient in UI/UX, I introduced innovative design for enhanced user experience. Simultaneously, my robust backend coding led to a seamlessly functioning system, significantly improving accessibility and streamlining the internship process.
- Instrumentally contributed to Kumasi Technical University's internship system by engineering transformative features. Streamlined processes for students and administrators through innovative tools, reducing manual workload and enhancing overall efficiency. Acknowledged for substantial cost savings achieved by optimizing resources and minimizing operational expenses through these streamlined processes.
- Integral to Kumasi Technical University's internship system transformation, I earned recognition as the best staff and received a monetary reward. Collaborating closely, we positioned the university as a leader in internship program administration, contributing over **200,000 cedis**. This underscores my pivotal role and our collective impact on the project's outstanding success.

Glydetek Group Banking Middle System For BACCSOD Bank

- Contributed significantly to the development of the Glydetek Group Banking Middle System for BACCSOD Bank, actively working on the creation of a robust system that controls and monitors activities across **16 branches**. Engineered a scalable solution applicable to all company banks, significantly broadening the system's scope and enhancing its potential for revenue generation.
- Contributed over **45% to the system's construction**, actively emphasizing efficiency and streamlining processes for enhanced operational performance. Successfully implemented process optimizations, facilitating seamless monitoring and control of diverse banking activities. These efforts ensured increased efficiency and cost-effectiveness in the Glydetek Group Banking Middle System for BACCSOD Bank.
- Significantly impacted company revenue through substantial contributions to the project's success, driving significant monetary gains. Received company recognition after taking over the project from a former colleague, solidifying my crucial role in completing the Glydetek Group Banking Middle System and ensuring its overall success.

Hydot Group Comprehensive School Management System For Every School

- Creating a comprehensive Hydot school system, I've developed a robust platform catering to all day-to-day school activities, irrespective of location. As a personal project transitioning into a startup, the system is approximately **80%** complete, poised to revolutionize school management.
- Building the Hydot school system independently, I've taken on the entire project solo. This includes designing and implementing each feature, ensuring the system's functionality and adaptability to diverse school environments.
- Anticipating an annual revenue of not less than **150,000 cedis** upon completion, the Hydot school system is set to make a substantial impact. As a solo endeavor turned startup, this project reflects my dedication to innovation and the potential for meaningful contributions to the education sector.

EDUCATION

University of Ghana

BSC. Information Technology

August 2025

COURSE WORK

SOFTWARE ENGINEERING | MULTI MEDIA AND WEB DESIGN | MOBILE APPLICATION DEVELOPMENT |
DATABASE | SOFTWARE EVOLUTION

INTEREST

Reading | Financial Literacy | Technology Trends | Football
