Remote Jobs

This is my strategy to land a remote Job at the beginning of the 3rd Quarter of 2024

Technologies

Backend	Frontend	Mobile	Others
Dotnet MVC	React js	React Native	Leetcode
Dotnet Api	Html	Flutter	Hackerrank
Laravel MVC	CSS	Electron JS	Portfolio website
Laravel API	Tailwind	Native Android	Github
Express Node	Bootstrap	Native IOS	Docker
Spring Boot MVC	Javascript		Kubernates
Spring Boot Api	Typescript		CI/CD tools
Advance SQL	JQuery		AWS
Django MVC	Advance Animations		
Django API	Vue JS		

Tricks

- Twerk your CV to match every job requirements
- Apply for remote internship plus current Job experience
- Build maximum point from leetcode and hackerrank
- Build portfolio website
- Build systems with all the technologies learnt
- Keep Applying

Sites

- wellfound.com
- indeed
- forage
- glassdoor
- linkedin
- andela
- relocate.me
- arbeitnow
- Turing

Tools

- Job scan
- my perfect resume
- leetcode
- hacker rank
- algorithms and system design
- portfolio website

Duration

Preparation duration is 6 months, at the end this should be my final result

I. Highest point in leetcode and hacker rank
II. Advance CV and Master of all Technologies
III. Project to demonstrate all the technologies, the technologies will be loaded to my official website so they should be professional

April 2024 to September 2024
